

Humanizing High-Performance

KELSEYKATES
FOUNDER OF PLAYFULLY WORKS
(FORMER GLOBAL HEAD OF LIVE LEARNING AT GOOGLE)
MIT NEUROSCIENCE TRAINED

The Future of Work Needs More Humanity, Not Less

As technology and AI commoditize execution, the organizations that thrive will be those that can adapt, connect, collaborate, and innovate.

At the center of all that change is one simple truth: the most important operating system in any organization is still human

Keynote Speaking

High-energy talks that shift mindsets and inspire action.

Workshops & Facilitation

Interactive experiences designed to solve real team challenges.

Consulting

Whether it's building world-class facilitators, bringing more engagement to your meetings, or creating experiential learning that lands

Coaching

From bringing your authentic playfulness to work to improving how you deliver in meetings, presentations or workshops, all to drive greater impact

Kelsey Kates strengthens the human skills that drive high performance – one dose of neuroscience-informed playfulness at a time.

The High Performance Shift

Fear

Psychological Safety

Let's Build a More Playful, High-Performing Culture

"Kelsey lives at the rare intersection of rigorous data science and creative playfulness. She has a gift for making complex learning feel like fun – I'd trust her creative brilliance with any challenge."

– Elle Duncan, VP Sales Enablement, Google

"It was not play as gimmick. It was play as energy, attention, and permission."

– Charlie Leake, Kuehne+Nagel
